Subject: RE: DVR Wolverine World Wide

Jeff,

Just wanted to touch base. You should have in your hands the DVR, the summary table, and the individual residence letters and lab reports. I also had our data management staff setup the Scribe database and they touched base with Brian Cooper to supply him with that info for figure creation which I was under the impression you would be working with him directly for figure needs. What else can we provide for you?

Also, the TDD for the PRP work also came through on Friday. You mentioned last week on the phone you may be sending me some info for generating a timeline of work, but I never saw anything come through. All I have for that work is the TDD and checklist. Is there anything you need for that work immediately or in the near future that I can either get started on our at least start planning for?

Thanks

Brent Ritchie, MS

Mr. Kimble,

Tetra Tech is resubmitting the data validation report for the World Wide Tannery site previously submitted on February 8, 2018. Sample detection and/or quantitation limits were corrected for two samples and two samples were inadvertently excluded from the previous submittal. Therefore, please disregard the previous submittal. Please contact me with questions or comments.

Thank you,
Kris Schnoes
